

172. Mosquitoes

mosquitoes mosquitoes mosquitoes
buzzing around my head
mosquitoes mosquitoes mosquitoes
driving me crazy, making me mad

I hit them with my towel
I hit them with my hand
Why do they stay
Why don't they understand

injections in my back.
injections in my eye
injections in my legs
I think I'm gonna cry

mosquitoes mosquitoes mosquitoes
buzzing around my head
mosquitoes mosquitoes mosquitoes
driving me crazy, making me mad

I am Marnix and I don't like this
little sticking monsters
They hurt me Every night
So I have to hide

I hide me in a tent and
I hide me in the water
I let myself sink
Here I can sleep tonight

mosquitoes mosquitoes mosquitoes
buzzing around my head
mosquitoes mosquitoes mosquitoes
driving me crazy, making me mad

But when the sun
starts to shine
and the birds
Begin to sing
I'm happy
No more mosquitoes
no itching or pain
when the sun
starts to shine
and the birds
Begin to sing
I'm happy
happy, happy,
I'm happy again
