

PM HAVE A NICE DAY

Prime Minister I'm so so happy  
to invite you to Judgement Day

I want you to know  
We hate what you do  
and your Build Back Better show

We the people penetrate  
all over the world  
to bring better times  
for people all over the world

You limit participation  
to only government and business

But together with us  
the people we can make a better world  
together with us  
the people we can make a better world  
together with us  
the people we can make a better world  
fascism is lurking that's why this song I  
sing

We need community spirit  
all around the world  
We need community  
spirit all around the world

.....

.....

I want you to know  
we hate what you do  
and your Build Back Better show

We the people penetrate  
all over the world  
to bring better times  
for people all over the world

Prime Minister I'm 0 so happy  
to invite you to Judgement Day  
led by ordinary people have a nice day,
